If you are trying to get people to go "vegan" for the environment or their health - PLEASE - could you not call that veganism. Just refer to it as eating a plant-powered diet or a plant-based diet. Thanks so much for being clear and truthful in your vegan education. Veganism is ALWAYS about not exploiting animals.

Definition Of Veganism

The word "vegan" was coined in 1944 by Donald Watson of the Vegan Society of the UK. This definition states: *"Veganism is a way of living that seeks to exclude, as far as possible and practicable, all forms of exploitation of, and cruelty to, animals for food, clothing and any other purpose."*
